CORPORATE BACKGROUND

INTRODUCTION

As an innovative and dynamic company rooted in the realm of Information Communication and Technology (ICT), **3F RESOURCES SDN BHD (3FRSB)** proudly stands at the forefront of revolutionizing the industry. Our unwavering commitment lies in delivering top-notch professional services, seamlessly integrating the latest skills and cutting-edge technologies, and empowering individuals to explore boundless intellectual horizons.

BUSINESS JOURNEY AND GROWTH:

Our journey began on the 2nd of January 2004, when **3FRSB** was officially established as a privately held company in Malaysia. With our corporate headquarters nestled in the vibrant city of Kuala Lumpur, we embarked on this venture with a small yet dedicated team of seven (7) staff members. Fastforwarding to the present, we have flourished remarkably, now boasting a formidable workforce of over fifty (50) professionals.

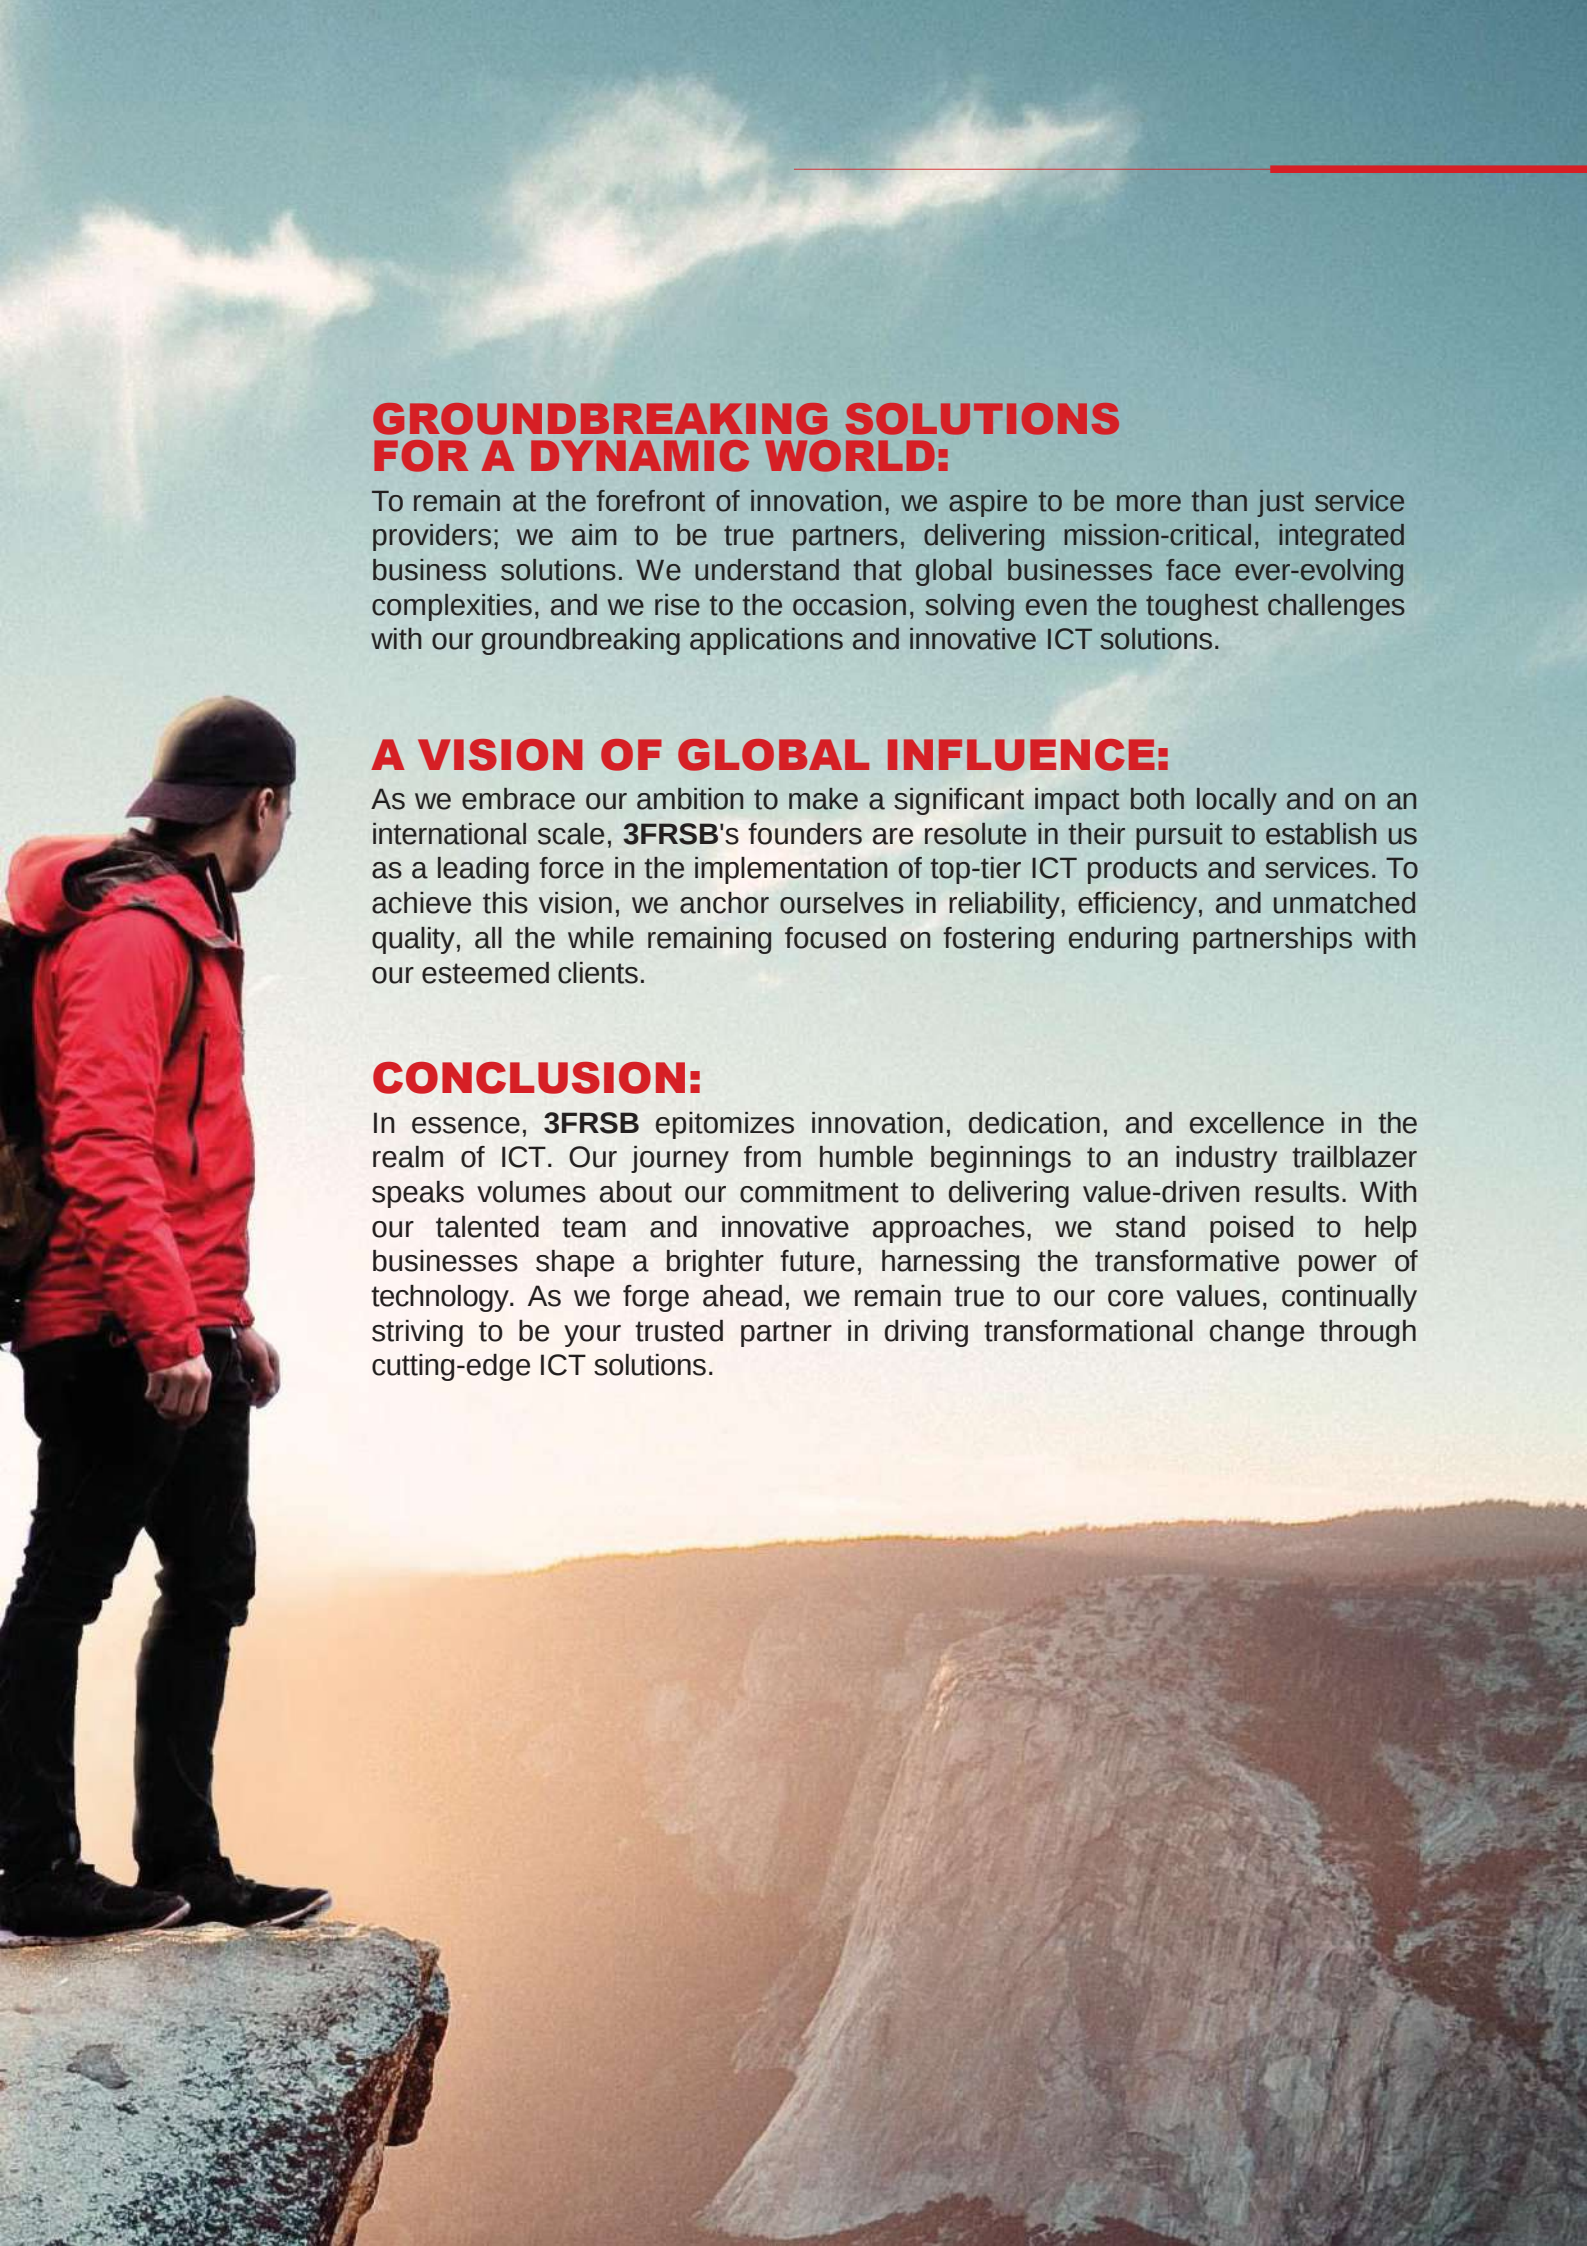

In the span of almost two decades, **3FRSB** has charted an impressive trajectory of growth, witnessing a substantial multifold increase in revenue. This resounding success attests to our unwavering commitment to excellence and our remarkable ability to adapt to the ever-evolving market dynamics.

DIVERSE INDUSTRY EXPERTISE:

Notably, **3FRSB** has carved a prominent niche for itself in a diverse array of industries, leaving an indelible mark on Education, Government, Transportation, Agriculture and Plantation, Defense and Security, Healthcare, and Telecommunication sectors. This versatility reflects our capacity to deliver exceptional solutions tailored to the unique needs and demands of each industry, reinforcing our status as a trailblazer in the ICT landscape.

MISSION AND VISION

At the heart of **3FRSB's** operations lies a cohesive team of seasoned technical experts and accomplished IT professionals. Their collective expertise and acute understanding of client requirements enable us to craft bespoke solutions that align seamlessly with your distinct needs. Our primary mission centers on providing superior Professional Services that yield tangible results, serving as a trusted ally in optimizing your endeavors.

GROUNDBREAKING SOLUTIONS FOR A DYNAMIC WORLD:

To remain at the forefront of innovation, we aspire to be more than just service providers; we aim to be true partners, delivering mission-critical, integrated business solutions. We understand that global businesses face ever-evolving complexities, and we rise to the occasion, solving even the toughest challenges with our groundbreaking applications and innovative ICT solutions.

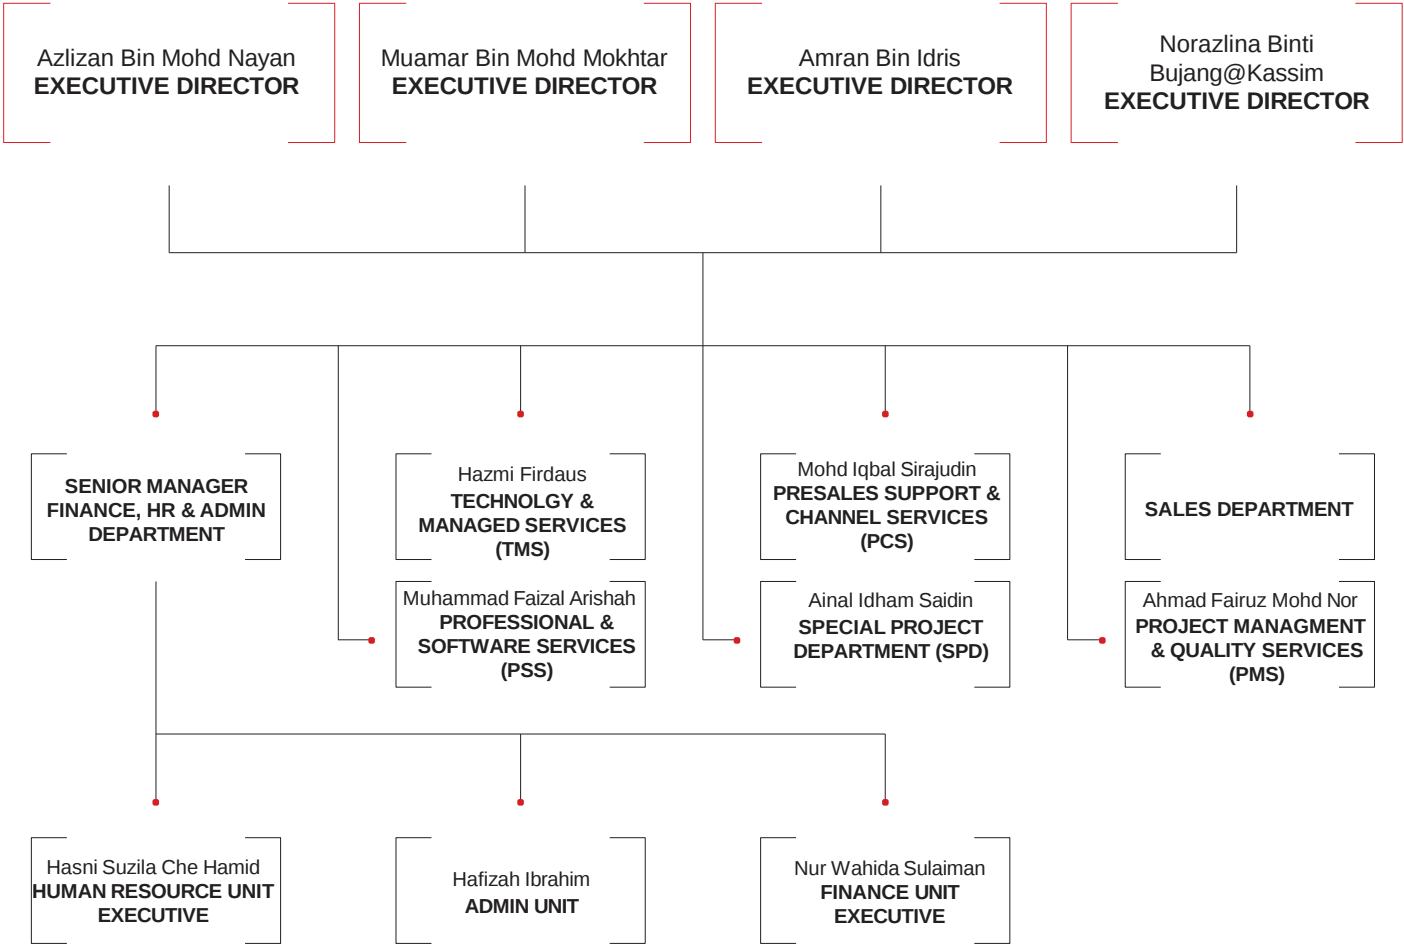

A VISION OF GLOBAL INFLUENCE:

As we embrace our ambition to make a significant impact both locally and on an international scale, **3FRSB**'s founders are resolute in their pursuit to establish us as a leading force in the implementation of top-tier ICT products and services. To achieve this vision, we anchor ourselves in reliability, efficiency, and unmatched quality, all the while remaining focused on fostering enduring partnerships with our esteemed clients.

CONCLUSION:

In essence, **3FRSB** epitomizes innovation, dedication, and excellence in the realm of ICT. Our journey from humble beginnings to an industry trailblazer speaks volumes about our commitment to delivering value-driven results. With our talented team and innovative approaches, we stand poised to help businesses shape a brighter future, harnessing the transformative power of technology. As we forge ahead, we remain true to our core values, continually striving to be your trusted partner in driving transformational change through cutting-edge ICT solutions.

WHY CHOOSE US

SYSTEM INTEGRATION FOR ICT

HARDWARE

We are authorized distributor/Dealer/Partner for a range of hardware and software such as Server, PC, Notebook, Workstation, Storage, Scanner, Printer and Networking products.

SOFTWARE

We resell popular software and applications for various business activities such as from Microsoft, Adobe, SPSS and others.

APPLICATION DEVELOPMENT

As for the software, we provide expertise in different disciplines to accomplish any specific task in applications development. We have strong application developers that can meet any customers requirements.

DEVELOPMENT OF SMS GATEWAY AND APPLICATIONS

We have worked together with one of the Telco giants in Malaysia to develop SMS gateway and applications for the use in IPTA and IPTS.

IIUM SMARTCARD SYSTEM

We are experienced in smartcard application development for Bank Muamalat Malaysia Berhad. The Smartcard application is developed for IIUM students to replace their previous students' card, contains a few modules such as student ID card, bank card, access card, library card, etc.

WHY CHOOSE US

COMMON OFFICE ENVIRONMENT

INTRODUCTION

Common Office Environment Suite is a latest addition to 3F Resources Software Development. The Suite is developed especially for usage in office environment where we focus on electronic applications that help the staff to improve the quality of their work.

Application such as Staff Attendance and Reporting System (StARS), eDocument Management System (eDMS), Fixed Asset Tracking System (FiATS) and Helpdesk System are among our current available off the shelf application. 3F Resources also continuously plan to enhanced these applications and at the same time add more applications to the suite.

Available Application - Staff Attendance and Reporting System (StARS)

StARS is a web-based attendance monitoring system where each staff attendance would be recorded via web interface or using biometric devices. Human Resources Department would have access to evaluate staff performance and make report based on the staff's performance.

eDocument Management System (eDMS)

eDMS is a web based document management monitoring system where each project is documented and kept online. This is to ensure that the security of the document is protected. Another step towards the paperless concept, this system enables the personnel and the top management alike to keep tabs on their progress.

Fixed Asset Tracking System (FiATS)

FiATS is a web based asset tracking system where each asset in the organization will be monitored and managed right from the system. This is to ensure that asset would be managed properly and maintenance of each asset can be done directly.

Helpdesk & Monitoring System

Helpdesk System is a web based helpdesk management system where client or staff of an organization can manage trouble ticket in an organized manner. Technician or supervisor can directly update trouble ticket at any moment, the system also support online reporting.

LIST OF CLIENTS

CASE STUDY

PROJECT NAME:
DIGITAL DOCUMENT MANAGEMENT SYSTEM 2.0 (DDMS 2.0)
Phase I (2015 - 2018)

CLIENT NAME:
Malaysian Administrative Modernisation and Management Planning Unit (MAMPU)

BUSINESS CHALLENGE:
The project is a part of Paperless Government which has been implemented since 2013. 25 Ministries and 2 Agencies have implemented DDMS with the total of 20,000 users.

TECHNOLOGY SOLUTIONS:
To customize Electronic Records Management System (ERMS) which comply to ISO 16175:2011 (Information and documentation - Principles and functional requirements for record in electronic office environments) OR DoD 5015.2 (Electronic Records Management Software Application Design Criteria Standard). The system should also comply to MS ISO 16175. The usage is eventually for nonclassified and classified documents.

BUSINESS IMPACT:
The system, which is a Joint Application Development between government and contractor, will be implemented to all Government agencies and will have 200,000 users by the end of 2020. Eventually, it will cater for classified documents as well.

CASE STUDY

PROJECT NAME: **DEBT MANAGEMENT ANALYTICS SYSTEM (DMAS)**

CLIENT NAME

Lembaga Hasil Dalam Negeri Malaysia (LHDNM)

BUSINESS CHALLENGE:

Over the years, the number of tax defaulters in Malaysia kept on increasing. Then, there was no systematic process in identifying potential defaulters. Although various data was available, but there were no tools to analyse them.

TECHNOLOGY SOLUTIONS:

The system is designed to use Business Intelligence methods to mine and analyse the data. It lies heavily on IBM DB2, SPSS, TACOS/NBA.

BUSINESS IMPACT:

DMAS assists LHDNM to project possible tax evasion by individual or company. With complex calculation and various input from LHDNM system, DMAS produces critical findings of tax evasion summary and suggests Next Best Actions.

CASE STUDY

PROJECT NAME: **DATA WAREHOUSE MAINTENANCE**

CLIENT NAME

Lembaga Hasil Dalam Negeri Malaysia (LHDNM)

BUSINESS CHALLENGE:

Since these systems have been in use for decades, LHDNM have accumulated vast amounts of data over the years. This accumulation resulted in the development of a Data Warehouse. This warehouse is a central repository for storing and analyzing data that is used for making business decisions. The criticality of the Data Warehouse cannot be overstated. It is essential for the operations that it continues to operate smoothly and efficiently in order to support the business functions effectively.

TECHNOLOGY SOLUTIONS:

We provide services which include a) License Renewal b) Hardware Maintenance and Support Services

BUSINESS IMPACT:

Firstly, to maintain that software licenses are kept up to date to ensure the critical software is always function, complying with legal agreements and prevent any disruptions in services. Secondly, to ensure backups are up to date, and to prevent any unexpected failures that could lead to data loss or downtime. Thirdly, to help optimize the performance of the Data Warehouse for maximum efficiency.

CASE STUDY

PROJECT NAME: e-STAMPING SYSTEM

CLIENT NAME

Lembaga Hasil Dalam Negeri Malaysia (LHDNM)

BUSINESS CHALLENGE:

LHDNM had a difficulties to manually record the stamp duty collection from the public as there is no electronic system in place. There are 48 branches of LHDNM that need to use the new propose electronic stamp duty collection as to ease the business operation.

TECHNOLOGY SOLUTIONS:

We had conducted an extensive analysis study after being awarded the project in 2008. The e-Stamping System was successfully put into commercial operation in June 2009. Subsequently, the systems was enhanced to support the additional requirement of LHDNM in stamp duty collection business operations and are in good running condition till to-date.

BUSINESS IMPACT:

The commissioning of e-Stamping system by LHDNM has reduced the timeframe compared to manual transaction. As it is a web-based system with a tight security features, the authorized agents are now confidently made the transactions without any hesitation.

CASE STUDY

PROJECT NAME: **DOCUMENT MANAGEMENT SOLUTION**

CLIENT NAME:

Majlis Bandaraya Petaling Jaya (MBPJ)

BUSINESS CHALLENGE:

MBPJ recognised that the management of the documents needed to be modernised and improved to meet the demands of the digital age while maintaining the existing protocols and rules. However, while the Malaysian Government offers the service of DDMS 2.0 as the solution, some challenges remain in terms of system compatibility to the processes and rules that are unique to the Local Government. One major area is the rules governing the generation of File Classification (Klasifikasi Fail or KF) references.

TECHNOLOGY SOLUTIONS:

We proposed the development of the Digital Records Management System or DRMS. This system is an existing robust Document Management system that offered the functions that any such system would provide. The DRMS was able to be modified and reprogrammed to the requirements set by the Local Government. The system ran on existing IT resources while requiring only storage expansion to accommodate the additional future documents. The solution would also include a feature that allows for easy integration with the National Archives' guidelines.

BUSINESS IMPACT:

The management of the documents have been modernised and improved to meet the demands of the digital age while maintaining the existing protocols and rules.

CASE STUDY

PROJECT NAME: **DESKTOP COMPUTER LEASING**

CLIENT NAME:

Universiti Teknologi MARA (UiTM)

BUSINESS CHALLENGE:

8000 units of desktop computers distributed to various locations:

- i. Pejabat Bendahari UiTM Kampus / Cawangan Zon 1 (Selangor)
- ii. Zon 2 (Perlis, Kedah, Pulau Pinang & Perak)
- iii. Zon 4 (Pahang, Terengganu, Kelantan, Sarawak & Sabah).

TECHNOLOGY SOLUTIONS:

Desktop Computer to be leased for 48 months (May 2013 – April 2017).

BUSINESS IMPACT:

Help smoothen the daily operation.

KEMENTERIAN PENDIDIKAN

PROJECT NAME:

PERKHIDMATAN SEWAAN PERKAKASAN ICT SECARA SEWA GUNA (LEASE TO USE) UNTUK KEPERLUAN PENGAJARAN DAN PEMBELAJARAN (PdP) DI SEKOLAH-SEKOLAH KEMENTERIAN PENDIDIKAN MALAYSIA FASA 1 (ZON 12 : SARAWAK)

CLIENT NAME:

Kementerian Pendidikan Malaysia

BUSINESS CHALLENGE:

The deployment location in Sarawak itself, while seemingly straightforward, encompasses a range of complexities and challenges that can significantly impact efficiency, costs, and overall success. There are issues with inventory management, regulatory compliance, technological integration and cost management to distribute the following items to 214 schools within 30 PPD

- i. Laptop – 4347
- ii. Projector – 207
- iii. Printer – 207
- iv. Charging Cart – 207
- v. Anti Virus - 4347

TECHNOLOGY SOLUTIONS:

ICT Hardware Rental Services on a Lease-to-Use Basis for Teaching and Learning (PdP) Needs in Schools under the Ministry of Education Malaysia (Zone 12: Sarawak)

BUSINESS IMPACT:

Help smoothen the daily operation.

KEMENTERIAN PENDIDIKAN

PROJECT NAME:

Sistem Pengurusan Biasiswa dan Bantuan Kewangan Bersepadu Kementerian Pendidikan Malaysia (iSAFE)

CLIENT NAME:

Kementerian Pendidikan Malaysia

BUSINESS CHALLENGE:

To develop 3 modules (a) Modul Pengurusan Biasiswa/Cuti Belajar dan Pemantauan Bayaran Balik, b) Modul Pengurusan Bantuan Kewangan Institusi Pendidikan, c) Modul Pengurusan Bantuan Murid), which then will be integrated with other system such IDMe, MOEIS, HRMIS, etc

TECHNOLOGY SOLUTIONS:

Among others, we used PHP, Laravel, MySQL, Lumen, Bootstrap, API, NODE.js to develop Sistem Pengurusan Biasiswa Dan Bantuan Kewangan Bersepadu Kementerian Pendidikan Malaysia (iSAFE).

BUSINESS IMPACT:

The system will be used for the benefits of approximately 10,000 schools, which consist of more than 500,000 students.
